# Manufacturing Mission Control

A single platform to connect your back office operation to the factory floor for clarity, control and cost optimisation

- Manufacturing execution
- End to end traceability
- QA & inspections
- Real-time monitoring
- Digital work Instructions
- IoT & machine connectivity
- MCP connectivity

# Manufacturing Mission Control

Composable by design: start small, scale fast, connect everything

**sage** Intacct

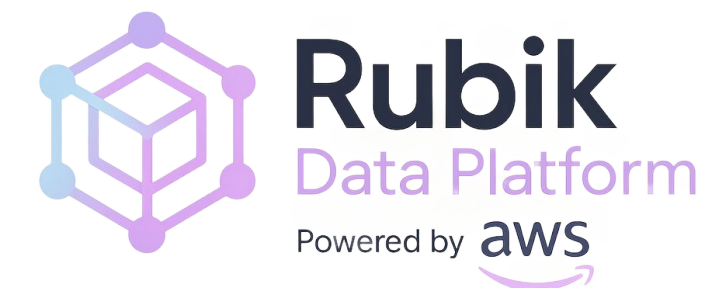

## ERP Foundation Integration

Supports integration with  
most modern ERP  
solutions

## Composable MES

No code digital workflow  
environment with OT  
connectivity

## Industrial Intelligence Platform

SaaS based industry  
ready data analytics  
platform
