

REVOLUTIONISE YOUR BAKERY WITH PINESOFT'S PROCESS AUTOMATION

Transform your bakery operations with Pinesoft's cutting-edge RFID powered Process Automation solution. Gain tight control over time-critical steps to ensure increased quality, consistency, and maximum throughput of your ovens and resources.

HOW IT WORKS:

- ✓ **Boost Efficiency:** Increase factory visibility while simplifying production processes.
- ✓ **Ensure Quality:** Control production processes to increase quality and consistency whilst reducing waste.
- ✓ **Audit:** Capture production data for each batch, providing invaluable audit information for you and your customers.
- ✓ **Seamless Integration:** Manage batches effortlessly using RFID technology. Simply tell the system what you're making, and it does the rest.

Our flexible software adapts to your bakery's growth, enabling you to:

- **Expand** your product range
- **Track** product variations
- **Introduce and control** new production steps with ease
