

ACTIVE GOVERNANCE

Reduce operational risk.

Ensure continuity in the Digital age.

Our Senaryo Jumpstart Portfolio

- Innovation-to-Market
- Customer Journeys. Fulfilled.
- **Active Governance**

ARE GOVERNANCE AND COMPLIANCE STRATEGIC TO YOUR SUCCESS ?

No Problem. We have you covered.

Reduce operational risk while making sure that your teams, partners and suppliers conform to strategic governance policies and procedures. Create the foundation for a resilient and sustainable enterprise.

Are you seeking a simple and digital-ready solution for planning, activating and tracking governance and compliance across your organization, suppliers and partners?

If yes. We have you covered.

Our Active Governance Jumpstart service is built on market-proven recipes aligned to your strategic priorities across all aspects of your value chain including key suppliers and distribution partners.

Deliverables include a showcase Proof-of-Concept and Business Case for transformation to a Digital solution to plan, track and activate real-time operational compliance across your targeted priorities and imperatives.

“Senaryo has changed the game for us. Our governance solution has become a strategic differentiator.”

Jumpstart Service

Our Agile, Flexible approach focuses on value fast while delighting our customers.

Here is a summary of our Jumpstart service steps to success.

Step 1 - Discovery

Through a combination of surveys combined with a workshop, we document fully your needs, requirements and SWOT.

Step 2 - Priority

Next we work with your to prioritize the findings from Discovery Step 1 to define value based priorities mapped to quarterly milestones along with expected outcomes.

Our Senaryo Services Team are passionate about creating value and achieving success for our customers every day. Equally we strive to do well, by doing good in terms of our social, environment and ethical behavior. Here are just a few customer examples to guide your decision to engage.

CASE STUDY #1

World-Class Logistics

Our client, a market leading logistics company has hundreds of locations transporting diverse products, goods and equipment. Senaryo and Aspenify have changed the game for how they ensure consistent, measureable and efficient best practices across their entire network.

CASE STUDY #2

International Trade & Distribution

Leading manufacturing and distribution companies are actively focusing on Environment, Social and Governance (ESG) across their entire Value Chain. Our client has achieved a new milestones for transparency and compliance, universally among partners and suppliers.

CASE STUDY #3

Risk Management Standards Consultancy

There is strong motivation across organisations to adopt industry standards for risk management and business continuity. Adoption can be complex, costly and time consuming. Our digital-ready platform streamlines service delivery, increases transparency and adds new sources of revenue.

A UNIQUE APPROACH

Our Unique Approach in platform deployment and application development meet your exact requirements to ensure your success. Our Agile, Flexible approach focuses on value fast while delighting our customers.

Shift from reactive to Active Governance

Even well prepared organizations can be blindsided by events that can cause safety issues, financial liability and potentially impact company value. Only careful planning and testing ahead of time can truly mitigate risk. The ability to maintain visibility, test and retest, is at the heart of a proactive solution.

Step 3 - Co-Create

Once priorities are set, now comes the fun part, co-creating the solution/s together using our innovative workshops and collaborative design process.

Step 4 - Concept

Now it's time to create the concept to showcase the value to be achieved. We commit to providing wireframes as standard or optionally clickable demos within a 2 week time frame once steps 1-3 are complete.

Step 5 - Business Case

We wrap up the Jumpstart Service with your business case summary covering value, financial, timing and investment. This can be used to drive forward investment to turn the concept into reality.
