

# KD Pharma: Plant Relocation

Relocation of a plant designed and constructed in 1999  
(*Pre-ATEX regulation*) from Switzerland to the UK.

- Analytical review of legacy plant and conformity reporting, adhering to UK regulation & requirements
- Concept to commissioning support for PLC and DCS projects
- Ensure compliance with GMP and CDMO facility standards
- EC&I consultation and project development
- Hardware procurement and vendor liaison (*OEM*)

***“Process Group provided vital support to a legacy system, ensuring uptime and continuous function. We have seen improved efficiencies towards production and EC&I procedures, with concise consultation from their team of experienced engineers.”***

Ashley Cartwright, KD Pharma
