

# Introducing SQLWorks

A Lineal Business Management & Manufacturing Software Solution

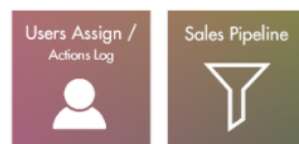

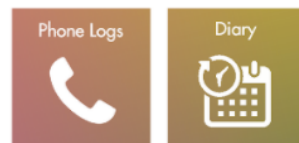

SQLWorks is a highly integrated **MRP, Accounting, Stock Control & CRM** platform for UK businesses created by Lineal Software Solutions Ltd.

Our software's modular structure and flexibility over user experience, means we deliver something that closely matches the way your staff work each day.

A skilled UK-based software development team ensure accessible expertise, bespoke software tweaks and a problem-solving ethos is always available to support your business.

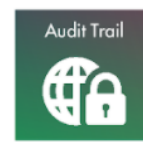

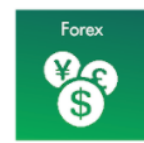

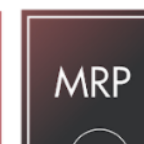

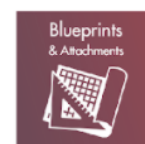

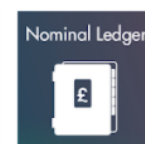

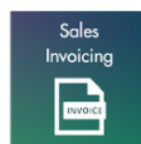

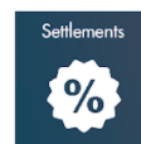

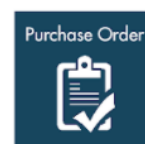

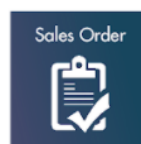

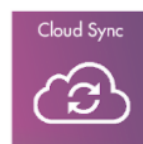

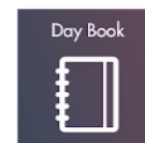

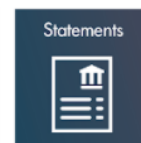

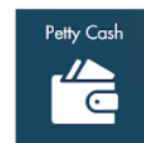

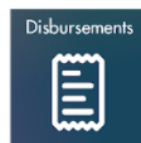

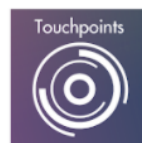

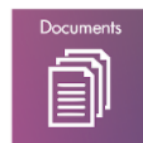

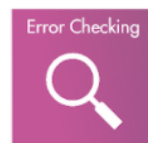

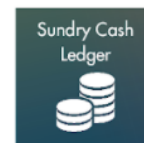

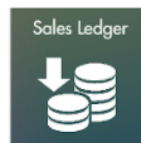

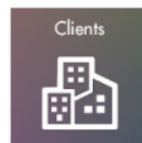

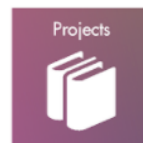

We're officially recognised by HMRC for Making Tax Digital (MTD), are a certified Microsoft Gold Partner, and a registered Apple Developer.
