

## Timely, accurate and affordable

### Making it quick and easy for your customers to buy from you

The current process of submitting specifications, preparing quotes and getting to the Bill of Materials is lengthy, highly labour intensive and inaccurate; quite simply it is not fit for purpose with deals being lost as a result.

Solenoid's industry experts have specifically designed a modern cloud-based Configure-Price-Quote (CPQ) platform, with scale and line-item volumetrics uppermost in mind, to simplify, streamline and automate the end-to-end process of ordering and delivering Bespoke Products. What used to take hours or days now takes seconds or minutes with accuracy a given whilst closing deals faster means there will be less lost.

Through its innovative self-service portal, Solenoid provides your customers and sales team with real-time access to your pricing and stock positions giving your them a quicker and convenient means of requesting quotes and placing orders with you.

Solenoid is a young company and its solution is finding favour in the market because of the all-round benefits it delivers. Pricing is subscription based along with a small implementation cost offering maximum flexibility whilst maintaining the uniqueness of your business.

If you would like to find out how Solenoid's solution could help your business please contact me: Neeraj Kumar on email at [neeraj.kumarkp@solenoidauq.com](mailto:neeraj.kumarkp@solenoidauq.com) or call me on +44 (0) 7595 309921.
