

Get set for the future. **Now.**

Do you have the skills to lead digital transformation in **your business**?

Become a digitally informed, empowered leader and know how to prepare and help your business respond more effectively to technology driven change.

Programme Overview

This blended programme will help you explore the value of Industrial Digital Technologies for your business. With a mixture of face to face and online delivery, you will complete a series of workshops, action learning sessions and site visits to see businesses that have successfully adopted digital technologies and learn from business leaders lived experiences. You will be part of a peer network group where you can share your challenges and achievements within a facilitated action learning forum.

Who is the programme for?

Designed for operational leaders/decision makers in manufacturing SMEs.

What will it cost?

The programme is offered at a 50% subsidised rate and will cost £2,500 per delegate.

"I want to develop a digital strategy. It's all very well doing little snippets, but you need the whole picture before you start to spend money on that type of journey. This programme is certainly helping that."

Jeremy Kemsley-Pein,
Director, Heatsense Cables
