We work with you to keep your operations running smoothly and efficiently while aligning your system with your strategic goals. Discover the Mint® difference and see how our expert support can transform your Salesforce experience.

Why Mint® Managed Services?

1 Comprehensive Salesforce Support

At Mint®, we provide continuous support for the configuration, maintenance, and administration of your Salesforce org. Our team of experts ensures that your system runs efficiently and that any issues are swiftly resolved. Rest assured, we're here to help!

Our consultants are on hand to provide support and expert consultancy services, when your organisation needs it.

2 Tailored User Training for Maximum ROI

Empower your team with personalised Salesforce training. Mint® can deliver customised training guides tailored to your organisation's needs, ensuring your users are always up-to-date and maximising your investment in the Salesforce platform.

3 Expert Consultancy and Strategic Guidance

Benefit from best-in-class consultancy on system development and third-party integrations. Our team offers personalised recommendations for AppExchange packages, alongside best practice advice, to ensure your Salesforce solution is perfectly aligned with your business goals.

4 Proactive Monitoring and Issue Prevention

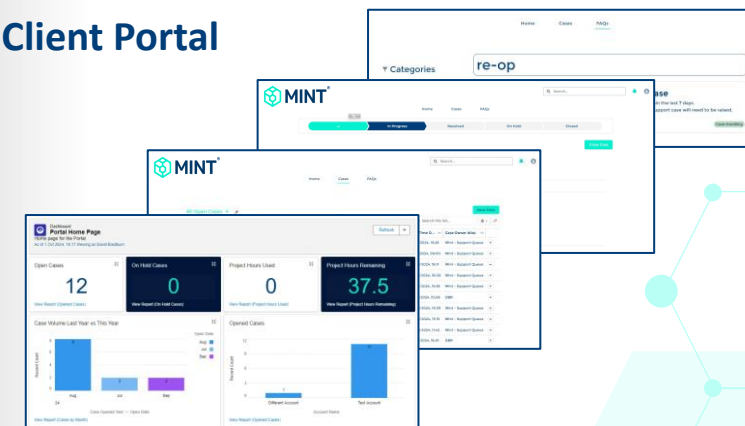

Stay one step ahead with Mint®'s proactive support. We monitor Salesforce and third-party package updates, identifying and addressing potential issues before they can disrupt your operations.

5 Clear and Transparent Billing

Our support is billed in 1-hour units. We provide regular monthly statements detailing the time spent and tasks completed, ensuring you always know where your investment in our service is going.
