

Digital procedures and training

Manage your work instructions and training the easy way.

Introduction

Too many manufacturers are reliant on printed procedures.

We exist to enable manufacturers to easily digitalise their procedures and training records.

Printed procedures make for a slow and error-prone process

Operator

I can't find the right instructions

Editor

It will take too long to change it

Quality Assurance

Is this the latest version?

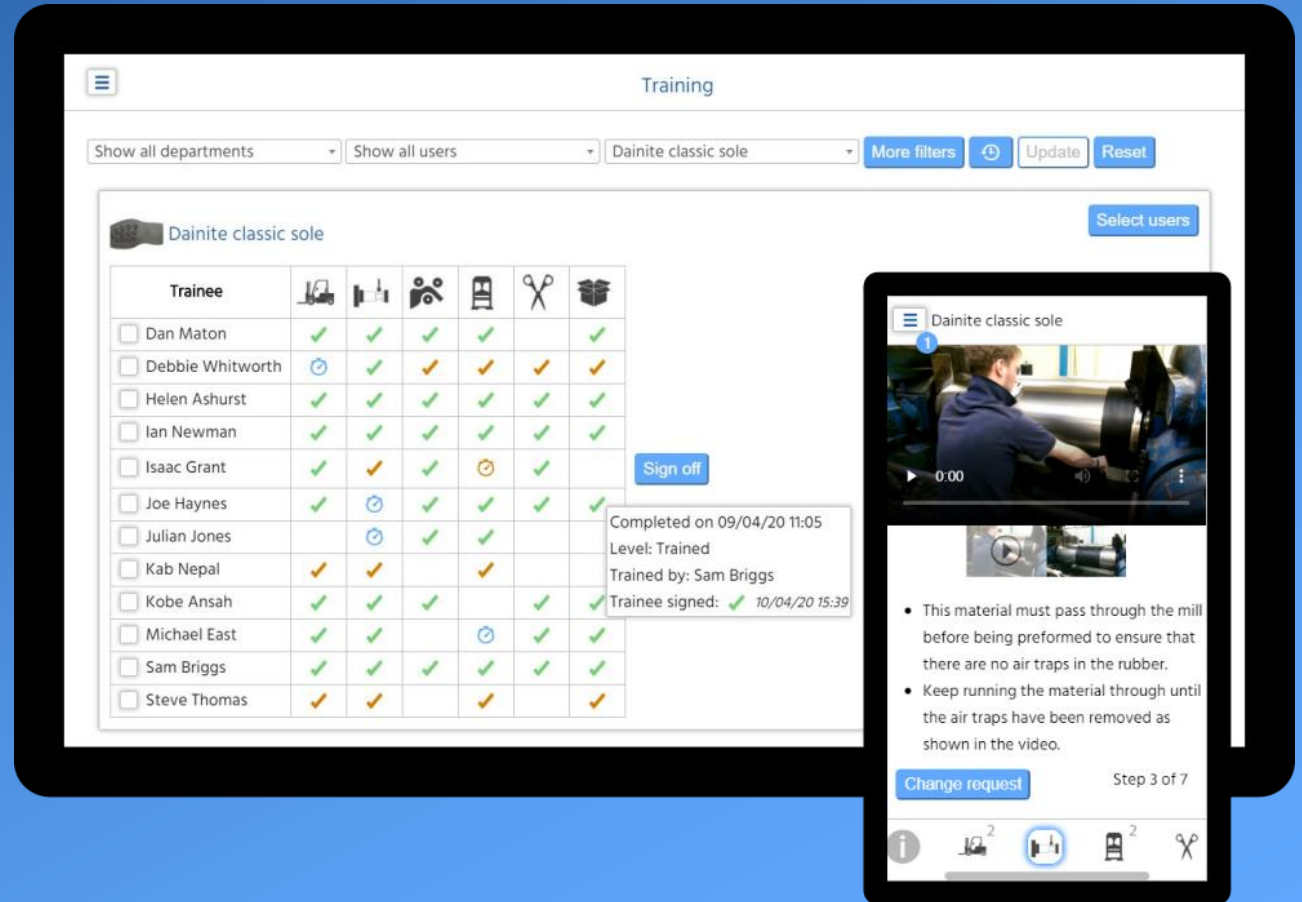

Management

Is the training matrix up to date?

However, there's an opportunity to...

- Simplify paperwork
- Reduce errors
- Speed up the process and reduce bottlenecks
- Improve the quality of training

Dainite classic sole

0:00

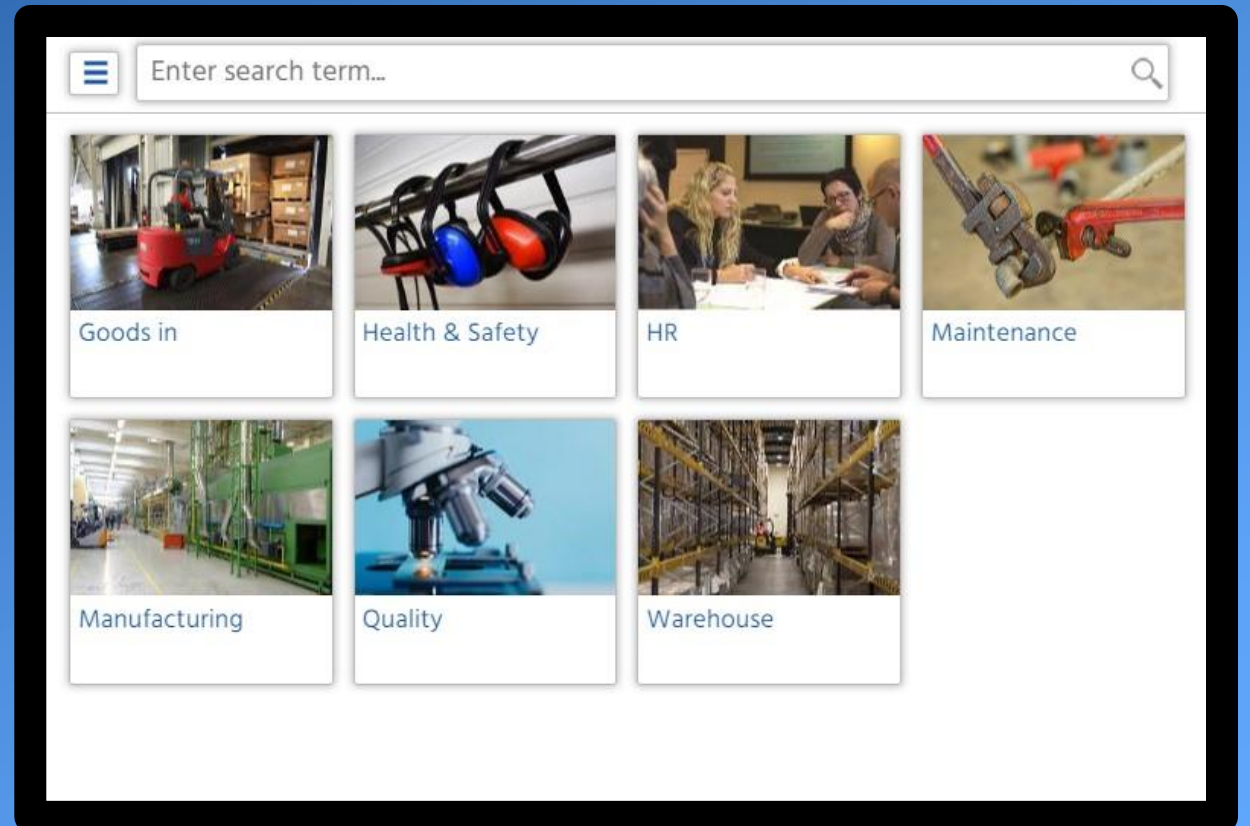

- This material must pass through the mill before being preformed to ensure that there are no air traps in the rubber.
- Keep running the material through until the air traps have been removed as shown in the video.

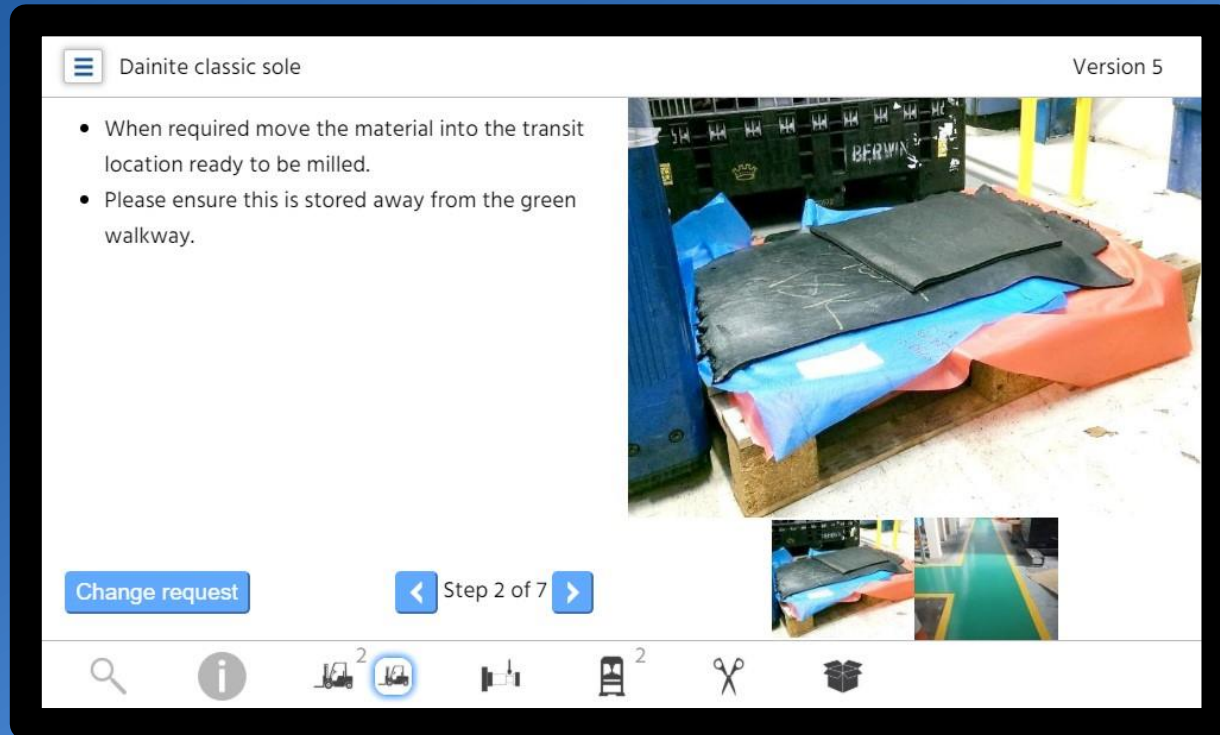

Change request | Step 3 of 7

All you need in one place

Every procedure and training record in one location

- Quickly search for what you want
- Oversee documents for all areas
- Manage training across departments

Easy to follow, media rich procedures

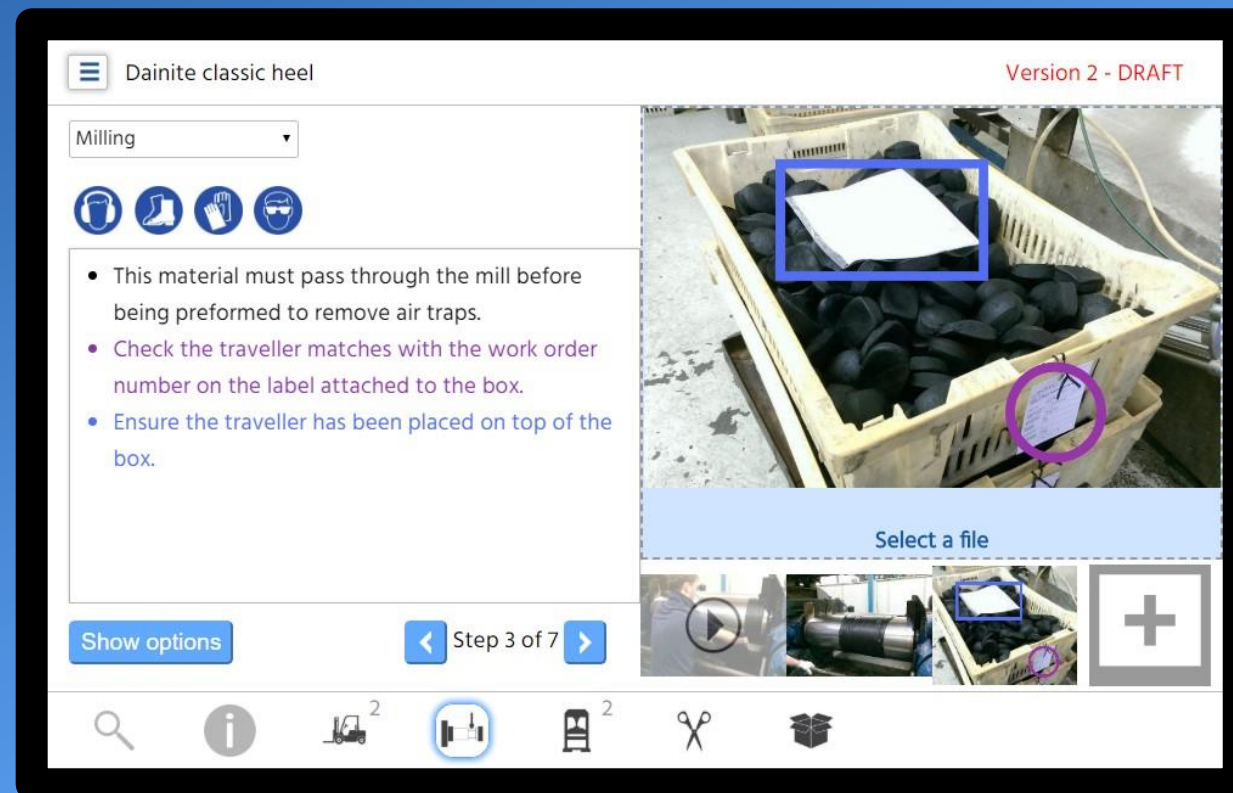

Use our step by step format with embedded videos to boost training

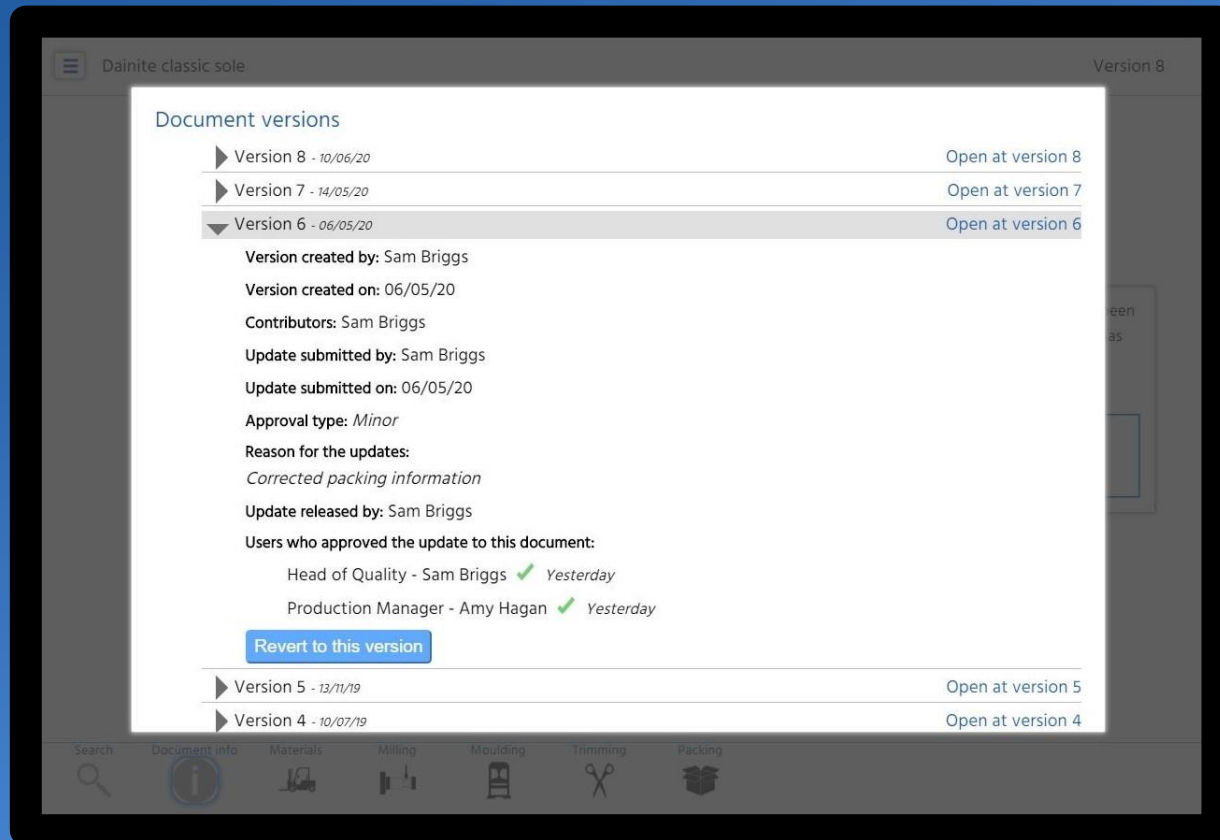

- Consistent, intuitive formatting
- Full traceability on the version history
- Automated sign off process

Update procedures on the go

Create and update procedures whilst walking through the process

- Upload photos and videos directly into a procedure
- The simple format saves editing time
- Use rich text, tables and annotations

Document control made easy

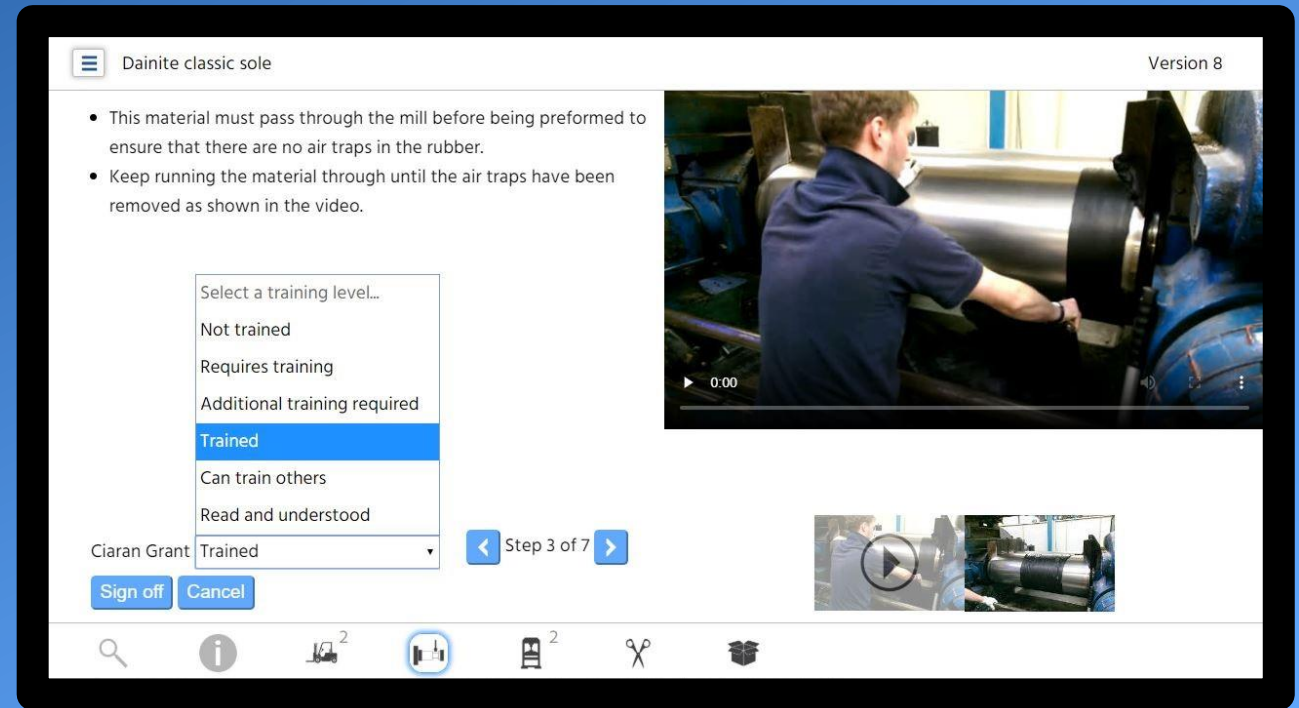

Automated document control simplifies compliance

- End users can only see the live version
- Full traceability on the version history
- Automated sign off process

Manage training painlessly

Integrated training means records are always up to date

- Filter the training matrix to identify training gaps
- Sign users off against procedures
- Users are alerted to updates

Procedures and training made easier

Access anywhere

Access your information anywhere with our secure cloud platform, or install Starling on your servers.

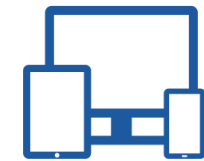

Simplify ISO compliance

Simplify compliance to accredited standards with document control and training management.

Control permissions

Ensure a user can only see what they are supposed to see and edit what they are supposed to edit.

Use across devices

View, train on and edit procedures from various devices from wherever you are using a web browser.

Hear from our customers

“We chose Starling because it gave us the full package, we couldn’t find any other system that gave us the opportunity to integrate training requirements with training documents. It is a very easy to use system.”

Paul Hughes, Head of Business Improvement

IVC BRUNEL
HEALTHCARE

£51 million turnover
Nutritional supplement manufacturer

“There was definitely an improvement in document control and our training process and records. Knowing the software’s capability, there WILL be money saved / improved quality through video training. Thank you for finding a ‘Solution’ to our problems.”

Marius Adrian-Ciortan - Assistant Quality Manager

£27 million turnover
Automotive manufacturer

“Implementing Starling has allowed the supervisors to take better control of quality as there is far more clarity than previously. In one sector of the business rejects were running out of control, since implementing Starling rejects have dropped by 70%.”

Iain Provins - Production Manager

£9 million turnover
Rubber component manufacturer
