ACHIEVE ISO 27001 CERTIFICATION

Level 3: Cyber ISO 27001 is for your business if:

- You want to achieve ISO 27001 certification and need support to plan your journey.
- You need to develop or strengthen your Information Security Management System (ISMS).
- You want to improve cyber resilience, meet customer requirements and prepare confidently for audits.

Empowering Cyber Champions to achieve ISO/IEC 27001:2022 certification and build organisational resilience

Cyber ISO 27001 is for businesses that want to achieve best-in-class security, advanced resilience and ISO certification. ISO 27001 requires a strong Information Security Management System (ISMS) and preparation for audits. This training gives your **ISO 27001 Champion** the knowledge and practical tools to plan, introduce and achieve certification.

Workshop Outcomes

You will develop the mindset and skills to create your **ISO/IEC 27001 Certification Action Plan**:

- Get support throughout the ISO 27001 certification process.
- Understand the ISO 27001 requirements and security controls.
- Learn how to identify gaps, assess risks and document the controls you need.
- Understand leadership responsibilities, ISMS scope and how it fits into your business.
- Learn how to engage staff, manage audits and keep improving security.
- Develop a practical plan to implement controls, prepare for audits and maintain certification.

Our tutors are certified ISO/IEC 27001 Lead Auditors and educators with experience in ISMS deployment across SMEs, cybersecurity, digital forensics, and organisational change. They create a supportive and engaging learning environment that encourages reflection, collaboration, and practical application.

This training complements Cyber Essentials, digital transformation, and risk management initiatives.

Eligibility & Funding

Cyber ISO 27001 training is fully funded for employees and managers from **small or medium-sized (SMEs) manufacturing businesses operating in Yorkshire** who are registered with Made Smarter and committed to implementing ISO 27001:2022 to certify their business.

Participants must attend all sessions and complete the short workplace project to develop their Readiness Action Plan.

Cyber Essentials Plus accreditation, or equivalent, is required for this course and prior ISMS knowledge would be beneficial.

ACHIEVE ISO 27001 CERTIFICATION.

Workshops

Designed to fit around busy schedules, this training is delivered through 16 hours of support across 2-4 sessions, over two months. Delivered online, in person, or onsite at your business. It will provide practical ISO 27001:2022 readiness skills, 1-2-1 tailored coaching and leave your businesses with a tailored 90-day Action Plan.

➤ **1. ISMS Foundations & Gap Analysis**

ISO 27001:2022 overview, key clauses and Annex A structure, context and leadership initial ISMS gap assessment.

➤ **2. Risk Management Essentials**

Asset identification, risk assessment, risk register, risk treatment and control selection.

➤ **3. Reflection & Homework**

Consolidating key gaps and drafting a list of information assets and current controls.

➤ **4. Annex A Controls & Statement of Applicability**

Annex A control themes, prioritising controls for businesses and drafting a Statement of Applicability.

➤ **5. Implementation, Audit & Certification**

ISMS processes, internal audits, management review and preparation for Stage 1 & 2 certification audits.

➤ **6. Close & Next Steps**

Final Q&A, key takeaways and signposting further ISO 27001 support.

Participants will apply the work to their own business, completing a gap analysis, a risk register, a draft Statement of Applicability, and a 90-day ISO 27001 Readiness Action Plan.
