

About Thoughtlogik

Thoughtlogik is a leading partner for Odoo in the UK and Europe. We deliver business agility and digital transformation solutions built on Odoo's comprehensive suite

We strategically utilize our in-house consultants and developers located in the UK and India. This combination ensures that we offer cost-effective solutions while maintaining high standards of quality.

Our onshore team in the UK provides expertise and close collaboration with clients. Our offshore team in India excels in handling routine and repetitive tasks efficiently, at a significantly lower cost.

Our model is built for scalability. As one of the fastest-growing partners in the UK and EU, we're well-equipped to accommodate your evolving needs without compromising on pricing or quality.

Our Commitment

Personalised Consultation: We go beyond being a solution vendor; we become a true partner in your success.

Continuous Communication: Maintaining open lines of communication, regular updates, and collaboration.

Fair Treatment for All: We provide the same high-level experience and treat all clients fairly, regardless of their size.

Why Choose Thoughtlogik?

In-House Development: Thoughtlogik boasts a robust in-house Odoo development team of 15 experts, a rarity in our industry where outsourcing is prevalent.

Comprehensive Service Offering: Our service portfolio spans sales, marketing, servicing, accounting, inventory, human resources, recruitment, project management, and custom app development, ensuring a holistic solution.

Tailored Solutions: We excel at crafting Odoo systems that align seamlessly with your business. No customization request is too simple or too complex for us to handle.

Odoo Certified Team: Each member of our team is Odoo-certified, assuring expertise and competence in delivering Odoo solutions.

Proven Project Methodologies: Our well-established project methodologies, specifically designed for Odoo, ensure efficient and effective implementation.

Our Implementation Approach

We adopt management consultancy approach. We start with pain points and gain a thorough understanding of your existing process and systems. We then map out an integrated business system solution
