VISION INTELLIGENCE

Supercharging the productivity of manual assembly-lines using AI

Meet VIOLET AI, our AI powered assembly assistant

Manual assembly processes are a black box

⚠️ **People make mistakes** which are often not caught immediately

📋 **Lack of traceability & data** to improve human performance in manufacturing

Boosting human productivity to increase manufacturer margins

📊 **Improve yield**
through immediate alerts if defects are detected and process analytics

🔍 **Streamline Root Cause Analysis & Transparency**
through our full AI & video reports

📖 **Enhance work force training**
by identifying best practices and automated video content

VIOLET AI combines...

State-of-the-art EDGE Sensors
- Capture and analyse operator activities in real time
- Easily setup our cameras in 30 minutes
- Low cost one-off fee per sensor

with...

Cloud Analytics Dashboard
- Gather shopfloor performance data in one place to make data-driven decisions
- Search through history of all jobs & products completed on the line
- Monthly subscription per sensor

Crane: Not engaged
Tool: Wheel press
State: OK

LEADERSHIP TEAM

Krste Pangovski, PhD
Co-Founder & CEO
PhD Manufacturing Diagnostics, University of Cambridge, Entrepreneur First

Tom Dawes
Co-Founder & CCO
Serial entrepreneur with experience of scaling global manufacturing businesses

Jonathan Mak, PhD CEng
Co-Founder & CTO
PhD Engineering, University of Cambridge, Entrepreneur First.

PARTNERS & AWARDS

Rising Stars 5.0 City Winners — East of England · fit factory · DUNLOP AIRCRAFT TYRES · UKRI Innovate UK · #21toWatch SHORTLIST.2023 · NVIDIA INCEPTION PROGRAM · E&T Innovation AWARDS Finalist · Working together to build the NORTHERN POWERHOUSE · NATEP · Make Shanghai Your Home 留・在上海 · CATAPULT Digital MACHINE INTELLIGENCE GARAGE · WM 5G · ECO SPRINT · A-STAR
